SIMPLY CLEVER

SET QUICKER LAP TIMES FOR YOUR PULSES

The car conceals its SUV character with its sculpted design lines, further embellished by racy details that give it an elegant attitude. Its 4x4 capabilities take on any terrain with effortless ease. And being the ŠKODA that it is, plenty of Simply Clever solutions, generous space and modern connectivity features ensure that you can explore your world in total comfort.

The KODIAQ SPORTLINE is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

SPORTY DRESS FOR ANY OCCASION

The dynamic and emotive nature of the KODIAQ is best emphasised by the SportLine version. The car offers an aesthetic experience as well as pure driving pleasure, making the everyday even more exceptional.

FRONT VIEW

The black features, such as external side-view mirror covers, front grille frame and spoiler on the front bumper, give the car a unique look combining the ferocious expression of the KODIAQ with the individualistic traits of the SportLine version.

SIDE VIEW

The black strips around the side windows as well as roof railings, which are optional, are a perfect match for the black features on the front. The protective side trims of the SportLine version are the colour of the body. The sports styling of this car is underlined with original 19" alloy wheels, which come as standard. To further enhance the overall impression and your driving pleasure, you can opt for 20" alloy wheels.

REAR VIEW

The narrow silver coloured trim integrated in the lower part of the rear bumper lends visual lightness to the robust rear. HEADLAMPS AND FOG LAMPS

The characteristic fog lamps of the KODIAQ have been incorporated in the SportLine version too. The location of the fog lamps at the height of the radiator grille, where they are protected from damage, clearly shows the car's off-road ambitions. The main headlamps boast an eye-catching integrated strip of LED daytime running lights. The top-end option is all about LED technology.
