THE ONLY THING TO EXPECT IS EVERYTHING

The new ŠKODA RAPID is a car that doesn't like getting labelled. While it looks like a stylish compact car that's been reinterpreted with ŠKODA's crystalline design language, one glance inside and it feels like stepping into a higher-class automobile. With state-of-the-art connectivity and safety systems, there is a lot of technology that works behind the scenes to make every journey more comfortable and carefree. Whatever your expectations, it's time to exceed them.

The RAPID is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

STYLE THAT'S ALWAYS IN STYLE

Sharp, angular, dynamic – some words that come to mind while appreciating the RAPID from outside. It's bold, it's beautiful and it's every bit attractive as cars much higher than its class.

SIDE-VIEW MIRRORS
The side indicators, placed in the external side-view mirror caps, represent an attractive as well as highly functional detail.

FRONT VIEW
The front grille is incorporated neatly between the headlamps. The wide air intake grid with integrated fog lamps as well as a noticeable chrome strip feature at the the front of the car. The top package includes the Bi-Xenon headlamps with LED daytime running lights.

SIDE VIEW
Thanks to the black B-columns, the glazed area of the side windows appears uniform and suggests a large interior space. SunSet tinted windows underscore the elegance of the RAPID and protect rear passengers from sunshine.

LED REAR LIGHTS
The RAPID comes with LED rear lights. The familiar C-shaped illumination is a typical feature of every ŠKODA vehicle.

INTERIOR DESIGN

YOU'LL NEVER WANT TO GET OUT

Before getting impressed by the generous space inside the RAPID, you'll notice how aesthetically everything has been laid out. Whatever happens on the road, it always stays cosy inside.

AMBIENT LIGHTING

With soft ambient lighting, including illumination on the door handles, the interior will be more cosy and comfortable.

DASHBOARD

Form follows function. The stylish instrument panel is clearly legible and all the controls on the elegant dashboard and the driver's door are practically arranged. The top package includes a multifunctional leather steering wheel, which enables you to control the radio and phone.

ROOMINESS

The knee and head room in the rear puts this model at the top of its class. The outer rear seats are anatomically shaped to provide maximum comfort.

CONNECTIVITY

STAY IN TOUCH WITH ŠKODA CONNECT

To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while travelling. ŠKODA CONNECT is your gateway to a world of unlimited communication possibilities.

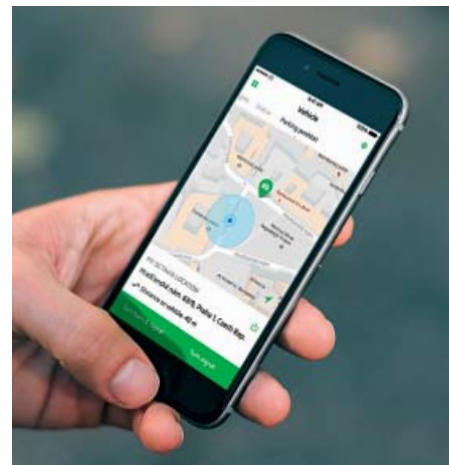

ŠKODA CONNECT

This offer includes two categories of service. While Infotainment Online delivers real-time information to navigation, about traffic for example, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it.

PARKING POSITION

Retrieve the pinpoint location of your car in large parking spaces from anywhere on your mobile phone, with the address, time and date of parking displayed.

DRIVING DATA

Information about your journey, such as average consumption, average speed, distance and journey time, is stored. You can display your personal driving data and have an overview of all your trips.

EMERGENCY CALL

The RAPID's connectivity includes an SOS line. This emergency system is activated by pushing a red button placed on the roof. In case of a crash, the emergency call is made automatically.

ONLINE TRAFFIC INFORMATION

Always take the best route: Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents or traffic jams.

PETROL STATIONS

You can find out the distance, petrol station type and the current fuel prices. This information is displayed in real time. The fuel type of the vehicle is automatically detected and displayed.

WEATHER

Get the latest weather report for your current location, destination, or any other place with detailed forecasts, including precipitation predictions and warnings.

STAY TUNED. STAY IN TUNE

Your car is the hub for all things work or play. The infotainment systems bring top-level connectivity so you can enjoy the best functions of your mobile devices on-the-go.

AMUNDSEN

The Amundsen navigation system, controlled via a 6.5" touch-screen display, has two SD card slots and comes with an SD card pre-installed with maps. It's further equipped with a USB/Aux-in input jack and all the standard functions of a top radio, including the ŠKODA Surround sound system and Bluetooth. The devices can be used to control the car menu. The SmartLink+ and DAB (Digital Audio Broadcast) come as optional.

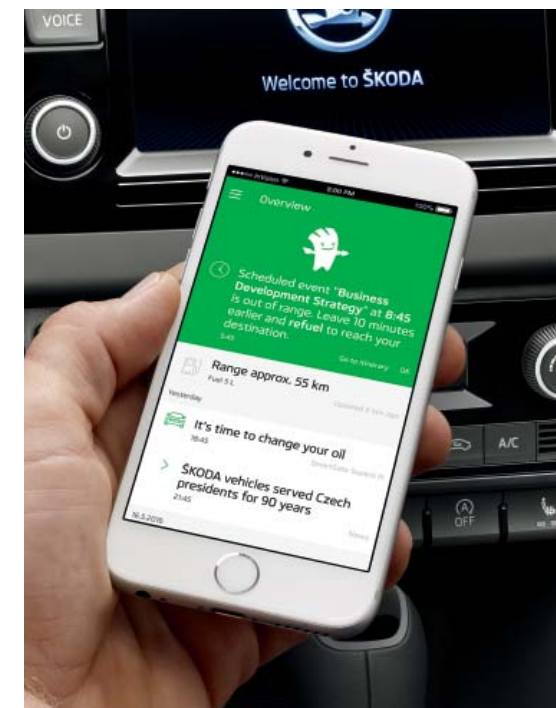

ŠKODA SURROUND

Turn your car into an amphitheatre. Developed in collaboration with a leading audio brand, the ŠKODA Surround sound system employs six speakers. Special software can additionally employ two virtual speakers in the front and rear. The system can also create a virtual yet impressive subwoofer.

SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay and Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via WiFi to access interesting data about your drive, like driving economy, driving dynamics or service information.*

MyŠKODA APP

Meet Paul, the interactive assistant of the MyŠKODA App (for Android or iOS systems)

who can be helpful in various daily situations. For example, you can use him to access information about your car or for a complete description of what controls what, and what each indicator lamp means, etc. What's more, Paul can also keep an eye on the dates from your planner. Not only will you never forget a meeting, but your assistant will also advise you on how to get there.

* Visit our website for usage terms and compatibility information for SmartLink+.

**SIMPLY
CLEVER**

START AN INTERIOR TREASURE HUNT

Plenty of thoughtful little features inside the RAPID add even more versatility to the car, making every ride an ingenious adventure.

ARMREST

The front armrest conceals a practical storage compartment for small items.

TICKET HOLDER

When you need to display a parking ticket in a visible place, the solution is simple. The car is equipped with a parking ticket holder under the windscreen.

UMBRELLA BOX

A box with the original ŠKODA umbrella can be found under the passenger seat.

REAR ARMREST

The rear seat armrest with an integrated holder for two drinks gives rear seat passengers the opportunity to enjoy the ride with refreshments.

ICE SCRAPER

The green ice scraper mounted on the fuel cap is within reach the moment you need it, plus it's not a problem to replace it when wet.

REFLECTIVE VEST COMPARTMENT

A special pocket located under the driver's seat makes a reflective safety vest immediately within reach if you need it.

SPACE THAT GROWS WITH YOU

The boot of the RAPID isn't just surprisingly big, it's surprisingly flexible, too. There are many options to fold, stretch, pull and hang that make the car adapt to your needs.

CAPACITY

The luggage compartment capacity of 550 litres, and 1,490 litres after folding down the rear seats, puts the car at the top of its class. If necessary, you can fold down one or two backrests and get more storage space, while there remains a place for seating in the rear.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

NET PROGRAMME

A set of nets will reliably prevent your stuff from moving around. Plus you will see clearly where you put things.

A man and a woman are sitting on a boat deck, looking out at the ocean. The man is wearing a brown jacket over a blue shirt, and the woman is wearing a grey jacket over a light-colored shirt. They are both smiling and looking towards the right. The background shows a calm sea and a distant shoreline with some buildings. The word "COMFORT" is overlaid in large, bold, black capital letters on the right side of the image.

COMFORT

TAKE IT EASY

Driving pleasure isn't all about speedy thrills. It's about the little comforts that add up in a big way, making even the daily commute far more comfortable for every driver.

CRUISE CONTROL
In addition to maintaining the preselected speed, cruise control enables you to increase or reduce speed without using the pedals.

STEERING WHEEL
The multifunctional leather steering wheel lets you control the radio and phone.

ELECTRICALLY-ADJUSTABLE WINDOWS AND MIRRORS
Controls for the electrically-adjustable front and rear windows and external side-view mirrors are conveniently located in the driver's door panelling.

HEATED SEATS
In cold weather, your friends or family will appreciate heating of the rear seats, which is regulated by a separate control on the rear side of the front armrest.

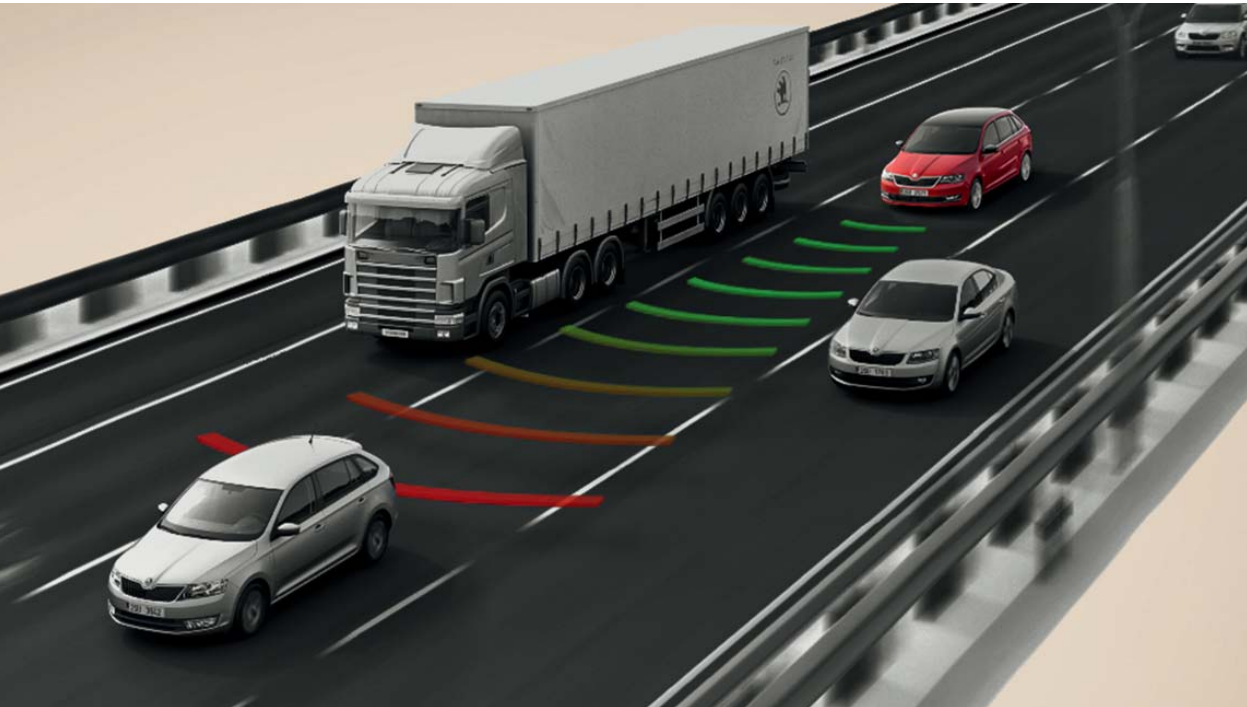

A man and a woman are shown in a close-up, profile view, looking out over a body of water towards a city skyline. The man, on the left, has a beard and is wearing a blue button-down shirt. The woman, on the right, has dark hair and is wearing a light-colored top. The background features a calm sea and a distant city with a prominent tower, all under a clear sky. The word "SAFETY" is overlaid in large, bold, black capital letters on the right side of the image.

SAFETY

TAKE SAFE FOR GRANTED

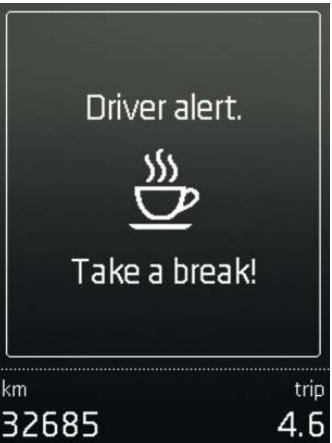

You can never be too safe. That's why the RAPID is equipped with plenty of safety and assistant systems that give you added confidence on the road.

REAR-VIEW CAMERA
Located on the 5th door handle, this camera monitors the space behind the car and indicates driving lanes, based on the vehicle width. Integrated washers improve the camera's functionality.

FRONT ASSIST
Using a radar in the front bumper, the Front Assist monitors the distance from the vehicle ahead and responds with an audio/visual signal, using Maxi DOT, to warn about an impending collision. If the driver fails to respond, the system initiates braking to minimise any possible impact.

DRIVER ALERT
This clever assistant system evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break.

AIRBAGS
Besides the front and front side airbags, the head airbags, which create a wall when activated, protect the passengers from potential injuries.

PERFORMANCE

BALANCE OF POWER

A convincing performance is one where you never lack power when you need it. A range of potent and economical engines will fulfil the expectations of all kinds of drivers.

PETROL ENGINES
All petrol engines feature TSI technology, which gives them a dynamic character. You can choose from 70 kW, 81 kW or 92 kW.

DIESEL ENGINES
The 66kW and 85kW diesel engines guarantee smooth running at exceptionally low fuel consumption.

TRANSMISSIONS
If you enjoy absolute power in absolute comfort, there's an automatic 7-speed DSG (Direct Shift Gearbox) transmission. Drivers who prefer manual gear shift can choose an engine with 5-speed or 6-speed manual transmission, which offers precise and easy gear shifts thanks to the short gears.

START-STOP
This system saves fuel by automatically switching off the engine when idle, for example while waiting at the traffic lights or when moving slowly in a queue of cars. By pressing the clutch pedal, the engine restarts automatically. Engine load reduction and more economical running are further assisted by the energy recovery functionality, which enables the effective use of the car's kinetic energy for battery recharging.

MONTE CARLO

GIVE THE PAPARAZZI SOMETHING TO CHASE

When the racy legend of the Monte Carlo Rally meets the style of the principality, you get the exciting ŠKODA RAPID MONTE CARLO. The car is characterised by a number of black exterior elements, which give it a unique style and a ferocious expression. Prepare for a life less ordinary.

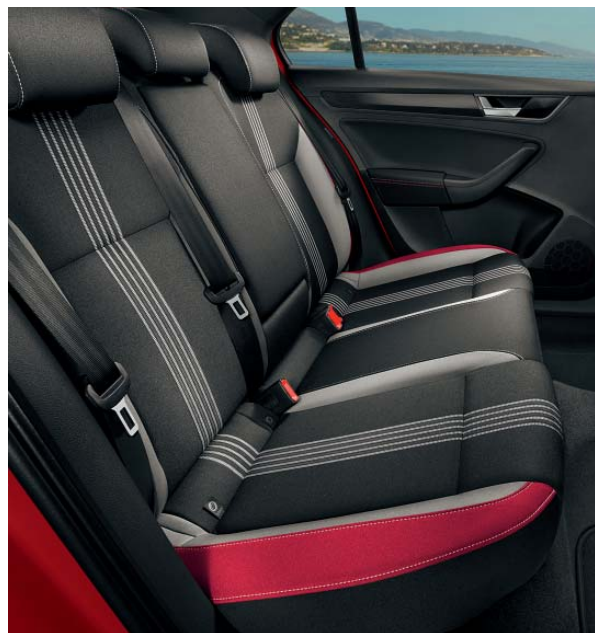

EXTERIOR DESIGN

The specific features in a black design include the external side-view mirrors, front grille frame, front fog lamps, front bumper spoiler, plastic door sill covers, 5th door spoiler, rear lights and diffuser. The Monte Carlo logo can be found on the B-columns. The attractive look of the car is underlined by the Bi-Xenon headlamps with LED daytime running lights.

INTERIOR DESIGN

The interior features upholstery in a combination of red, black and grey.

STYLISH FEATURES

The multifunctional sports steering wheel in black perforated leather is decorated with red stitching, which you can also find on the gear stick sleeve and the carpets.

NET PROGRAMME

A set of nets in varying sizes enables you to easily secure things so they do not shift while driving.

DOOR SILL STRIPS

The front door sill strips are decorated with the Monte Carlo inscription.

CUSTOMISATION

ACTIVE

The standard equipment of the Active version includes external side-view mirrors and door handles in black, tinted windows, darkened rear lights, a central locking system, electrically-controlled front windows, and more.

ACCESSORIES

TAKE YOUR CAR SHOPPING

No two RAPIDs need to be the same. ŠKODA Original Accessories can transform your car by expanding its practicality, safety and purpose, depending on what you have planned for it.

CROSS TRUNK GRILLE

If one of your passengers is a large dog, we recommend equipping your car with a trunk grille to safely separate the cabin and luggage compartment from your canine friend.

**EXTERNAL MIRRORS
DECORATIVE CAPS**

Your car can be still more attractive thanks to the external side-view mirror decorative caps with carbon design.

**DECORATIVE
VALVE CAPS**

With the tyre valve caps bearing the ŠKODA logo, your car will look stylish to the smallest detail.

MUD FLAPS

The front as well as rear mud flaps protect the chassis from mud and flying stones.

NET UNDER THE PARCEL SHELF

This net under the the luggage compartment cover is not only a suitable storage place for an umbrella but anything you may want to separate from the other luggage as well.

NETTING SYSTEM

A set of nets in red is a very attractive and practical accessory, which will reliably protect undesired movement of luggage and other objects in the luggage compartment.

PLASTIC BOOT DISH

If you often carry things that might soil the luggage compartment, the plastic dish, which can be easily removed and washed, is the perfect solution. It features a raised edge and an aluminium partition, which enables you to split the dish according to your needs.
